Claude Cheat Keys for UN Indicators & Dashboards

Electricity access desks: 5 countries, one table.

One question gives a baseline, a latest value and the change. Skip the Nature line and you miss that the 2024 values are modeled data.

Claude Cheat Keys for UN Indicators & Dashboards Tested

I asked for a baseline. It found 2024 as latest.

Claude ran with the skill and could fetch from the web. The latest year with data is 2024 for all five.

Copy this

Paste this question. Ask for the latest year.

The question I asked

copy and paste

```
Using World Bank data, what share of the total
population had access to electricity in Kenya,
Ethiopia, Nigeria, Bangladesh and Uganda? For
each country, give the 2015 value and the value
for the latest year with data. Put the results
in one table with the country, the 2015 value,
the latest year, the latest value and the change
in percentage points.
```

The question as asked in the test · the guide has the full table
