Claude Automation Builds for UN Work

Review team desks: a roster in 7 steps.

Check who confirmed only in the survey. Without the skill, Claude gave no team deadline.

Every timing rule in the skill is traced to a quoted line in the secretariat report

Claude Automation Builds for UN Work Tested

Without the skill: no date. The report says 10 weeks.

Left is Claude without the skill. Right is Claude with it.

Without the skill

asked 2026-10-30 00:22 UTC

“Your roster doesn't say, and I don't want to guess a deadline. It depends on your review procedure (the guidelines, terms of reference or secretariat timeline you work under) and on when the review starts.”

SAME TOOLS

With the skill

Who should I check again, and how early is the team formed?

roster-availability-tracker

****Team deadline:** "The secretariat forms the TERT for each TER at least 10 weeks prior to the review week." (para. 16)**

Left and right: Claude with the same tools, asked 2026-10-30 UTC · FCCC/PA/CMA/2026/10, para. 16

Claude Automation Builds **for UN Work** Copy this

Paste into a Project. It quotes **both lines**.

Project instructions copy and paste

```
Here is my expert roster for a technical expert
review team. Remove any names and personal details
before you read it. For each expert, tell me when
they last confirmed availability, whether that was
only the availability survey, who their backup is,
and what I should do next. Flag anyone with no backup
and any backup listed for more than one person. Use
only my roster and the secretariat report at
https://documents.un.org/api/symbol/access?
s=FCCC/PA/CMA/2026/10&l=en&t=pdf. Quote the report's
line on when the team must be formed and its line on
why experts decline. If you cannot open the report,
say so and do not answer those points from memory.
```

Project instructions · use only my roster and the secretariat report
