Claude Cheat Keys **for UN Work**

New UN staff, first week: 7 steps before you paste.

A new officer is about to paste a draft into an AI tool. Skip the check and it goes in before anyone has decided and marked it.

Every rule in the skill is quoted from the bulletin.

With the skill

Is my draft sensitive, and what do I do before pasting?

`sensitivity-precheck`

I can't tell you whether the draft is sensitive or safe to paste. That decision is yours under the bulletin.

Claude Cheat Keys **for UN Work** Copy this

Use this prompt. It leaves the call to you.

Project instructions — copy and paste

```
Before I share my draft anywhere, help me check it
for sensitivity. I have removed names and personal
details. Use only the Secretary-General's bulletin at
https://documents.un.org/api/symbol/access?
s=ST/SGB/2007/6&l=en&t=pdf and my draft below. Quote
the bulletin's lines on who decides and marks
sensitivity, on electronic transmission of classified
information, and its list of classification levels.
Then quote each passage in my draft that may be
sensitive, say why in a few words, and mark it as my
call. Do not decide the level for me and do not tell
me the draft is safe to paste. If you cannot open the
bulletin, say so and do not answer from memory. My
draft: <paste here>
```

The prompt asks it to quote the bulletin and mark each passage as your call.
